## DESIGN ARCHITECT

*Would you like to take advantage of your creative side and develop your full potential?  
It's time to join our team!*

In line with our expansion objectives, we are actively looking for a **creative and passionate individual** to take the lead on exciting new projects and to play a key role in their design and production aspects. The design architect position offers a unique opportunity for career advancement within a dynamic and people-oriented team. Established in Montreal in 2010 and located in the heart of Mile-Ex, **rocioarchitecture** brings together the talents of 10 professionals. Our areas of expertise include new constructions and project transformation as well as the redesign and restoration of existing buildings. Whether for commercial/office projects where we're known for pushing the envelope with reinvented coworking spaces or for residential projects where our new ideas are always tailored to the client's needs, we design stimulating and timeless living environments. We are actively seeking a motivated, curious and passionate candidate whose approach is directly in line with the stimulating challenges ahead of us.

## MAIN RESPONSIBILITIES

By taking part in the design and preliminary phase of a project and in collaboration with the design director, the design architect has the main responsibility to develop project concepts and to push them always further. He creates, models and represents ideas by producing architectural rendering and presentation documents.

### Specifically he:

- Develops sketches and 3D modelling
- Develops and elaborates concepts
- Produces presentation documents and visual supports
- Draws pre-design studies, preliminary, execution and construction plans
- Acts as an office representative with clients and business partners
- Produces drawings and specifications for tender and construction documents
- Acts as project manager
- And more!

## KEY SKILLS

- Demonstrates creativity, innovation and a propensity to generate ideas
- Has strong design, 3D modelling and visual presentation skills
- Has abilities to model an architectural concept in SketchUp
- Has recognized abilities to manage priorities and works well under stress
- Possesses the ability to manage multiple projects simultaneously under tight deadlines
- Has project management skills and demonstrate leadership
- Is comfortable working and engaging with a small team
- Is a positive leader with colleagues and clients
- Is an effective communicator and knows how to share his ideas
- Is optimistic, proactive and solution-oriented
