TECHNICAL DIRECTOR

*Would you like to take advantage of your experience in diverse and challenging projects?
It's time to join our team!*

In line with our expansion objectives, we are actively looking for a passionate and experienced candidate to fill the position of technical director. This position offers a unique opportunity for career advancement within a dynamic and people-oriented team. Established in Montreal in 2010 and located in the heart of Mile-Ex, rocioarchitecture brings together 10 professionals. Our areas of expertise include new constructions and project transformation, as well as the redesign and restoration of existing buildings. Whether for commercial/office projects where we're known for pushing the envelope with reinvented coworking spaces or for residential projects where our new ideas are always tailored to the client's needs, we design stimulating and timeless living environments. We are actively looking for a curious, meticulous and productive candidate who, with his expertise, will provide us with the technical support we need to face the stimulating challenges ahead of us.

MAIN RESPONSIBILITIES

In charge of production, the technical director has the main responsibility to deliver documents and plans according to building standards, to design complex details and to ensure the top quality of the technical work.
